

ASSESS

PersonalityPlus®

Spot the talent timely and cost effectively

Overview

ASSESS PersonalityPlus is an effective tool for a broad range of human resources management applications; which include hiring & selection, self-awareness, communication, teambuilding, performance management, change management, coaching and employee development.

ASSESS is a provider of a broad range of personality tests based on internationally recognized personality frameworks. Additionally, ASSESS provides customizable personality tests based on ASSESS or company-specific competency models.

Benefits

Reliable Testing

Highly reliable assessment results with emphasis on test security and process integrity.

Time & Cost Saving

Poor performers can be screened out at an early stage in the process, focusing on best candidates.

Local Market Experience

Our tests are calibrated for the local market assessment needs.

Scalability

Our solutions range from on-line single-user testing solutions to large on-site testing facilities and assessment center setup.

Hiring Process Objectivity

Base hiring process on a highly structured and formal process that reduces subjectivity and enhances comparability, thus reinforcing a positive employer brand.

Features

Bi-lingual Question Bank

Our assessments are randomly drawn from a large pool of English and Arabic questions.

Optimized for Arabic language speakers

Statistically Proven Models and Frameworks

Local Norm Groups

Local Comparability

Instant Reporting

ASSESS PersonalityPlus provides a personality profiling report with a detailed description of the list of personality traits of each assessee. It gives a snapshot to the recruiter on the competencies, the current possible performance and the potentials of the assessee.

ASSESS PersonalityPlus36 Report

Mohamed Ahmed Last Updated: 12/04/2016 4:13PM
FAHSJHGFTDRTGAFD

Introduction

This report describes the personal traits and tendencies based on ASSESS PersonalityPlus 36 model. It provides a high level summary of Mohamed Ahmed's personality profile followed by more detailed information on key behaviours.

The accuracy of this report depends on the frankness with which Mohamed Ahmed answered the questions as well as his self-awareness.

This report has a shelf life of 24 months and should be treated confidentially. Major personal or work related events may invalidate Mohamed Ahmed's report, and accordingly a new assessment should be completed.
