

## **Assessment Center Preparation**

1. Make sure you get enough rest before attending the assessment center as you will go through a series of different assessments throughout the day.
2. Do not be late to the assessment center, this may affect your overall score.
3. You will be given your day schedule along with the locations of the different rooms you will be using for different assessments. Make sure you are aware of those so you do not show up late to any them.
4. While taking the online assessments, you will not be required to communicate with any of your assessment center colleagues. If you have any questions during the assessment, please raise your hand and one of the ASSESS members will assist you.
5. Please leave all assessment center related documents in the rooms you found them in. You will not be required to take any of them with you once you have completed the assessment center.
6. Your final rating/score will depend on all exercises you go through during the assessment center, so do your best in all exercises.
